

Manual Carving Block Ice Shaver

- Manually chip excess ice off the top of carving blocks. Outside edges freeze up faster than the center.
- Creates a consistent size block for re-sale.
- Can be slid into a cardboard box for easier and safer handling.
- Blades pre-set at cutting angle for optimal efficiency.
- Blade should be professionally sharpened as needed. Replacement blades are available.
- Designed for use in conjunction with the Clinebell Tilt Cart.
